Introduction

Kareeberg Municipality is situated in the western side of Pixley ka Seme District Municipality in the Northern Cape Province. The district consists of one district and eight local municipalities of which Kareeberg is the smallest.

The municipality was established through the amalgamation of Carnarvon, Vanwyksvlei and Vosburg, as well as a large area of rural farms. The administrative centre is located in Carnarvon with Vanwyksvlei and Vosburg being rural service centres.

The landscape is typical Karoo with an annual average rainfall of 260mm and an annual evaporation of 230mm. There are no constant rivers running through the municipal area and all towns are dependent on ground water.

Local economic opportunities are sadly lacking in the municipal area with the declining economy being largely based on sheep farming. With an unemployment rate of approximately 25%, most of the residents rely heavily on the provision of free basic services.

Population growth has been positive by $\pm 2.07\%$ over the last ten years. The migration of economically active residents to greater urban areas has a huge impact on the population growth. The total population of the municipality is 11 673, which constitutes 3 222 households. 685 households (population 2 479), are residents in the rural areas whilst 2 537 (population 9 194) resides in the urban areas.

1.3 Executive summary

1.3.1 Introduction

The year ended with a surplus of R7.6 million. However, taking into account that capital expenditure from grants amounted to R10 million, a loss of R2.3 million was **achieved**. All MIG funding has been expended. Cash flow for the year is almost equal with cash outflow exceeding inflow by R 25 000 however, after finalising the financial year, it will be more like ±R 175 000. The payment of salaries previously funded from MSIG also has an influence on the cash flow.

Over spending on votes and type of expenditure not condoned may result in unauthorised expenditure which will result in a qualification. Attention is drawn to Table C4 as well as the breakdown of "other expenditure".

NB: The PMS Framework for 2014-2015 has now been approved.

The 2014-2015 audit action plan has not yet been approved.

The internal audit work plan, charter and risk assessment for 2014-2015 has not yet been approved.

Internal audit reports for the second and third quarters were received.

No audit committee meeting was held in quarter three or quarter four due to lack of a quorum.

Consolidated performance,

Revenue by source

Revenue is under received by 11% (R 5.5million) for the year. This is due to the fact that RBIG is not a conditional grant paid over to the municipality

The following graph indicates the generated revenue to date:

Operating expenditure by type

Expenditure is underspent by 9% (R 4.9million). This is due to RBIG not recognised as expenditure. Over expenditure occurred for the following items: transport of water to Vanwyksvlei to the amount of R 217 000, audit fees to the amount of R 230 000, travel and subsistence to the amount of R 171 000, interest on provision for employee benefits to the amount of R 197 000.

The following graph indicates the expenditure incurred to date.

Capital spending

The capital projects were completed 100%. The pipe line to Vanwyksvlei also showed expenditure.. The progress on capital projects will be highlighted in table SC 1.

Cash flows

The municipality has a negative cash flow for the year to date of R 25 000. It will increase to about R 175 000. This is due to the careful management of cash resources. In fact, a shortage of R 1.8 million exists for working capital.

Note should be taken that the cash situation is very precarious and that stringent credit control will be the primary solution to this.

The following table indicates the funds available for working capital requirements:
