## **Introduction**

Kareeberg Municipality is situated in the western side of the Pixley ka Seme District Municipality in the Northern Cape Province. The district consists of nine municipalities of which Kareeberg is the second smallest.

The municipality was established through the amalgamation of Carnarvon, Vanwyksvlei and Vosburg, as well as a large area of rural farms. The administrative centre is located in Carnarvon with Vanwyksvlei and Vosburg being rural service centres.

The landscape is typical Karoo with an annual average rainfall of 260mm and an annual evaporation of 230mm. There are no constant rivers running through the municipal area and all towns are dependent on ground water.

Local economic opportunities are sadly lacking in the municipal area with the declining economy being largely based on sheep farming. With an unemployment rate of approximately 61% most of the residents rely heavily on the provision of free basic services.

Population growth has been negative by  $\pm 4\%$  over the last ten years. The migration of economically active residents to greater urban areas has a huge impact on the population growth. The total population of the municipality is 9 488, which constitutes 2 728 households.

586 households (population 2 814), are resident in the rural areas whilst 2 142 (population 6 683) resides in the urban areas.

## 1.2 COUNCIL RESOLUTIONS

This report will not be tabled to council.

### 1.3 EXECUTIVE SUMMARY

#### 1.3.1 Introduction

A decision has still to be made whether a contractor should be replaced for the paving of streets in Bonteheuwel. The other project will be monitored closely for improvement in delivery.

#### 1.3.2 Consolidated performance

##### Revenue by Source

The audited outcomes for 2011/2012 reflected in this report are provisional as the audit of the Annual Financial Statements must only be completed by 30 November 2012 at which time the final outcomes for the financial year ended June 2012 will be known. However, the majority of the results in this report will be a fair reflection of the final results achieved for 2011/2012.

Revenue is 14% less than budgeted. R 2.3 million is for grants over budgeted for. Revenue for grants will be reflected in June 2013. Under billing of revenue for sanitation, water and refuse removal is continuing, although under 10%. Revenue for these services will be monitored closely. Electricity revenue shows a surplus of R 274 000(17%).

##### Operating expenditure by type

Year to date expenditure is 25%, R 2,2 million, overspent on a year-to-date budget projection. Bulk purchase of electricity has to be monitored closely due to an early over expenditure of the budget.(22% for three months) Due to the implementation of the wage curve, employee related costs are overspent by 29%.

##### Capital expenditure

As noted above, urgent decisions have to be taken to ensure effective implementation of the capital budget. There is still slow spending on the capital projects.

##### Cash flows

The municipality experienced a negative cash flow of R 1,075 million for September. This is due to implimentation of the wage curve and the increased expenditure on bulk purchases. A payment percentage of 91% does not help either

#### 1.3.3 Material variances from SDBIP

No variances recorded at this stage. The service Delivery and Budget Implimentation plan is reviewed thoroughly each quarter.

#### 1.3.4 Remedial or corrective steps

None at this stage.

#### 1.3.5 Conclusion

The rollout of the financial year will become more apparent during the next few months. The challenge, as always, will be to manage the debtors book effectively.

#### 1.3.6 SC1 Material variance explanations

The following is an explanation for material variances in the performance of the municipality.

**Monthly budget statements(cont)**

## Variances in year to date revenue:

Vote 1 - The high percentage is due to the equitable share that is recognised as income when received. It will taper down as the financial year progress.

Vote 2 - As stated last month, the yearly billing of rates takes place during July of each year, therefore the high variance under this vote. As with Vote 1 it will taper off during the months to follow.

Vote 15 - A slight increase in electricity usage is noted. Useage will nevertheless be monitored on an ongoing basis so that remedial steps can be taken timeously.

## Variances in year to date expenditure:

Vote 1 - The high percentage is the equitable share that is expended when received.

Vote 2 - The implimentation of the wage curve has an effect on the expenditure of this vote.

Vote 3 - The implimentation of the wage curve has an effect on the expenditure of this vote.

Vote 11 - The implimentation of the wage curve has an effect on the expenditure of this vote. Expenditure on salaries and wages are allocated from vote 12 - waste water management, at the end of the year.

Vote 12 - The implimentation of the wage curve has an effect on the expenditure of this vote. Expenditure on salaries and wages are allocated to vote 11 - waste management, at the end of the year.
